### Part III: Statutory Requirements

---

Under IC 6-1.1-12.1, designation of an Economic Revitalization Area, for projects with five (5) or more units, requires the city council to find that the proposed area has *"become undesirable for, or impossible of, normal development and occupancy because of a lack of development, cessation of growth, deterioration of improvements or character of occupancy, age, obsolescence, substandard buildings or other factors which have impaired values or prevent a normal development of the property."*

For designation as a Residentially Distressed Area (projects with four or less units) the city council must additionally find that the proposed area, as outlined in IC 6-1.1-12.1-12, has had a loss of population, net loss of dwelling units, significant building deficiencies and significant number of unimproved parcels.

What evidence can be provided that the project property meets the above statutory requirements?

The property has become undesirable for normal development and occupancy because of lack of development, cessation of growth, deterioration of improvements, substandard buildings in the area which have impaired values or prevent a normal development of the property.

This is evidenced by the fact that the property contains a vacant, deteriorating building. This is also evidenced by the following: (1) the property is located in a "qualified census tract" as designated by HUD, and (2) the project will be constructed in an area where there has been little or no significant new development in recent years.

As a result, the project property meets the applicable statutory requirements.

## Part IV: Proposed Project

The project will also contain a community center, leasing office, police substation, Head Start classroom, on-site off-street parking, playground, landscaping, site amenities, and green space.

1. Is this an owner-occupied, renter-occupied or mixed-tenancy project?

Renter-Occupied

2. Describe the intended or targeted market for this project, (i.e. household size, income levels, tenant mix, special needs, etc.)

One-, two-, and three bedroom units; At or below 60% AMI levels; Approximately 10% of units handicapped accessible.

The project will utilize Section 42 rental housing tax credits. As such, project tenants will be income-qualified (at or below 60% of area median income), and the rents will be restricted to 30% - 60% AMI rents.

## Part VII: Furtherance of Development Objectives

Please identify how the proposed project meets one or more of the following development objectives [attach additional sheets if necessary]:

1. Use of currently vacant, but previously developed land:

N/A

2. Rehabilitation or replacement of obsolete, deteriorated, vacant or under-utilized buildings:

The project consists of the rehabilitation, adaptive re-use, and conversion of the obsolete, vacant, and deteriorated school building.

3. Project is a "good fit" or appropriate for the location (i.e. design, density)

The Project is located on the eastern edge of the Jacobsville neighborhood. The project is surrounded by single-family homes to the north, east, and west and St. Joseph Catholic Church to the south. The project is located one (1) block from Delaware Elementary School, and a market is located on the same block as the project. The project is also located within walking distance of downtown Evansville, major employers, restaurants, grocery and retail stores, health and social services providers, etc. Thus, the project is a good fit for the location.

4. Project will improve the community's physical appearance

The project will convert a vacant eye-sore into a vibrant apartment community with completely renovated exteriors, re-paved parking areas, new landscaping, and site amenities in an area that has had little or no new development in recent years. Thus, the project will significantly improve the physical appearance of the community.

5. Preservation of historically or architecturally significant property:

The development will preserve the former St. Joseph Catholic School building, which was originally built in 1953, including the gymnasium.

**Part VIII: Other Information**

---

1. Please include below, or attach, any additional information that you feel will assist in evaluating this request for property tax phase-in.

As a result of the development of the project, approximately 2 full-time or part-time jobs will be created (an on-site manager and a maintenance person). In addition, the development/construction of the project will benefit various local contractors, suppliers, and services providers. Ultimately, the project will also increase the property tax revenues for the City of Evansville, as well as increased utility revenue. Finally, the development of the project will provide safe, decent, and affordable housing units, thereby increasing and improving Evansville's affordable housing stock.

## Certifications

I understand that if tax phase-in is granted for this project, that the Applicant will be required to submit a "Compliance With Statement of Benefits" form annually; and

It is my further understanding that if the Applicant should fail to comply with its commitments in job creation, job retention, project investment and/or any other commitments associated with its tax phase-in application, that the designating body has the right, after conducting a public hearing, to terminate said tax phase-in deductions.

I hereby affirm and certify that the information and representations of fact made in this application are true and complete.

Council Meeting 10/12/2015

**SUBJECT:** The Carpenter Court, L.P. project, presented by Pioneer Development Services, Inc., will entail the acquisition and rehabilitation of a vacant, deteriorated school building into a 45 unit affordable rental housing apartment complex. Using Section 42 tax credits the plan includes:

- One-, two-, and three-bedroom units including handicapped-accessible units
- Rents will be restricted based upon 30% -60% of the area median income
- Include community center, leasing office, police substation, head start classroom, and playground/greenspace

**Fiscal Impact:** Pioneer Development Services, Inc. estimates the redevelopment cost of the building and property at \$7,337,600.00.

**Recommendation:** Given the nature of the project (residential), the Growth Alliance works with the Department of Metropolitan Development to determine if a project is appropriate. Kelley Coures, Director, has deemed this project appropriate and is in favor of the project moving forward. As part of the Federal application process, the applicant must show local support for the project. Historically, we have done this with a traditionally scheduled 10 year Tax phase-in. Terry Keusch, president, has completed similar projects in the community, including the Cedar Trace apartments and senior living facility (2200 N 7th Ave, Evansville, IN).

**Assuming 100% rate, the total value of incentives would be approximately \$1 million and the project would generate a positive, Economic Impact of over \$7 million during the term of the abatement. More importantly, the community is provided additional rent controlled low to moderate income housing.**

The Growth Alliance has requested, and the applicant has agreed to, execution of an agreement with the City that would require the applicant to reimburse the City for an agreed to amount of the value of the benefits received to date in the event they would decide to terminate the facility within the 10 year period. This type of agreement has been referred to as a "claw back agreement" on prior projects.
